

PIGMENTS AND COLORANTS	Description	Producer
BAYFERROX®	Powdered inorganic pigments based on synthetic iron oxides Shades: red, black, brown, yellow, ochre	LANXESS
COLORTHERM®	Powdered inorganic pigments Shades: red, black, brown, yellow, ochre, green	LANXESS
TRONOX®	White powder pigments containing titanium oxide Rutile types (the chloride manufacturing process)	TRONOX
HEUCODUR®	Special inorganic powder pigments based on various metal oxides	Heubach
ULTRAMARIN®	Ultramarin blue, violet	Holliday Pigments
BRUFASOL®	Powder pigments for exterior and interior applications	Bruchsaler Farbenfabrik
BRUFABLEND®	Powder pigment mixtures	Bruchsaler Farbenfabrik
BRUFASOL®	Highly stable hybrid powder pigments	Bruchsaler Farbenfabrik

ADHESIVES	Description	Producer
VINNAPAS®	Dispersion powders vac / a, vac / e / and another for dry mortar and plaster mixtures	Wacker Chemie AG
OSAKRYL®	Water-based acrylic, styrene-acrylate, vinyl acetate copolymers	Synthos S.A.
SYNEXIL®	Water-based polymer dispersion vac, copolymers, homopolymers	Synthos S.A.
ACCLAIM® POLYOL	Polyetherpolyols, for the 2k synthetic elastic coating material, highly resistant adhesives	COVESTRO
ARCOL® POLYOL	Polyetherpolyols, for the 2k elastic solventless coating compositions and adhesives	COVESTRO
BAYBOND®	Polyurethane waterborne dispersion, finishing fiberglass	COVESTRO
BAYHYDROL® UV	PU dispersion for waterborne systems, UV-curable coatings - for plastics, wood (furniture and flooring)	COVESTRO
BYAHYDROL®	PU dispersions, polyurethane polyols for 2K waterborne systems, water-based paints 1k and 2k fabrics for automotive paints, plastics, industrial coatings, wood	COVESTRO
BAYHYDUR®	Hydrophilic polyisocyanate hardener for waterborne 2K polyurethane coating systems, blockované types for 1k baking lacquers for automotive applications for plastics, wood and metal	COVESTRO
BAYHYTHERM®	Waterborne, self-crosslinking thermosetting urethane resins for waterborne 1K baking systems - OEM, industrial applications	COVESTRO
BAYMEDIX®	PU materials for applications in healthcare	COVESTRO
CRELAN®	The polyisocyanate curing agent for powder coatings	COVESTRO
DESAVIN®	Plasticizer for coating and sealants	COVESTRO
DESMOCAP®	Crosslinked epoxy / urethanized resin for softening resins epoxy resins	COVESTRO
DESMODUR®	Aliphatic and aromatic di-isocyanates, polyisocyanates and polymers for the 1k and 2k PU coating systems with high dry matter content for the automotive, plastics, industrial and anticorrosive paints, wood, adhesives with high heat and chemical resistance (shoe, furniture)	COVESTRO

DESMOLAC®	Nonreactive polyurethanes, elastic secondary binder for plastic coatings	COVESTRO
DESMOPHEN®	Polyols, in combination with a hardener Desmodur used to 1k and 2k paint systems, high sušivých coatings for automotive, plastics, industrial and anticorrosive paints, wood, adhesives with high heat and chemical resistance (shoe, furniture)	COVESTRO
DESMOTHERM®	Self-crosslinking baking urethane resin for solvent 2k firing systems	COVESTRO
IMPRAFIX®	Catalysts / crosslinkers for textile aprotace	COVESTRO
IMPRANIL®	PU dispersions, solutions, granules for textile aprotace	COVESTRO
IMPRAPERM®	PU dispersions and solutions to textile permeable aprotace	COVESTRO
PERGUT®	Chlorinated rubbers	COVESTRO
NOVALKYD	Alkyd resins	Novaresine S.r.l.
NOVATHIX	Thixotropic alkyd resin	Novaresine S.r.l.
NOVATAN	Urethanized alkyd resins	Novaresine S.r.l.
NOVATER	Epoxy-modified alkyd resins	Novaresine S.r.l.
NOVAQUA	Waterborne alkyd resins	Novaresine S.r.l.
NOVASYNT	Saturated polyester resin	Novaresine S.r.l.
NOVAPOL	Binders for natural stone, mineral surfaces	Novaresine S.r.l.
NOVESTER	Special binders for coating wood	Novaresine S.r.l.
POLURGREEN	High solid isocyanates for 1k and 2k paint materials	SAPICI S.p.A.
POLURENE	Aliphatic and aromatic isocyanates, isocyanurates and prepolymer for adhesive and coating substances	SAPICI S.p.A.
UCOPOL	Moisture reticulated polyurethane for 1k painting materials	SAPICI S.p.A.
UCOPOL OL	Urethanized oil and urethanized alkyd resins	SAPICI S.p.A.
UCOFLEX	Solvent elastomers for clear and pigmented colors for ABS, PVC, polyurethane, polystyrene and paper	SAPICI S.p.A.
REXIN	Alkyd resins with short-chain oil	SAPICI S.p.A.
REXIN DP	Saturated polyesters	SAPICI S.p.A.
HYDROREXIN	Waterborne polyurethane dispersions without coalescents for coating substances	SAPICI S.p.A.
BLUEPUR	Waterborne PU dispersions for coating materials	SAPICI S.p.A.
HYDRORENE	Water dispersible isocyanates	SAPICI S.p.A.
POLURENE LP	Blocked isocyanates	SAPICI S.p.A.
REXIN XP	Linear and branched polyesters	SAPICI S.p.A.

# Coatings and sealants

Product list

Distributor chemicko technologických produktů

## CELLULOSE

MECELLOSE® FMC, PMC , EXL

### Description

Cellulose ethers (HPMC), modified water-soluble cellulose derivative for improving and regulating water retention, improve rheological properties, increasing the thixotropy

### Producer

Samsung Fine Chemicals Co.,Ltd.

## SILICONE BINDERS AND ADITIVES

RUCOSIL ®

### Description

Silicone binders, hydrophobic additives, wax emulsions, and defoamers

### Producer

RUDOLF GmbH

## BIOCIDAL PRODUCTS

PREVENTOL ®

### Description

Biocidal products for water-based and synthetic paints, industrial water treatment, conservation products for construction

### Producer

LANXESS
